

Northwest High School

- Located in Indianapolis, IN
- Owner: Indianapolis Public Schools
- 314,240 s.f. renovation
- Project Description: Built in 1961, Northwest High School has undergone only minor renovations and additions in its existence. Recently, OMS worked with Trotter/Turner to completed phased improvements to the facility. OMS completed design for HVAC additions and renovations, which resulted in air conditioning throughout the building. Much of the electrical also was upgraded, and new ceilings, lighting and sprinklers were installed in the entire facility. Upgrades and expansions to science labs were accomplished. These enhanced student learning and embraced the Indianapolis Public Schools Small Learning

Northwest High School

T.C. Howe Academy

Thomas Carr Howe Academy

- Located in Indianapolis, IN
- Owner: Indianapolis Public Schools
- 303,936 s.f. renovation
- Project Description: Constructed in 1937, OMS completed design for a phased renovation and historic restoration of T.C. Howe Academy. HVAC upgrades were initiated to provide air conditioning throughout the building. General classrooms and special education spaces were reconfigured to meet current square footage requirements, and seven of nine science labs were renovated. The administration offices also were reconfigured. T.C. Howe received new finishes throughout including carpet, VCT tile and paint. Student capacity is 945 in grades 7-12.
