

## Morocco Elementary

- Located in Morocco, IN
- Owner: North Newton School Corporation
- Additions/Renovations: 48,160 existing square feet, 28,615 new square feet
- Project Description: Originally built in 1921, Morocco Elementary will receive two additions. A large, two-story addition on the northeast corner of the existing building is proposed to include twelve classrooms, two kindergarten rooms, and a new media center. The second addition is located at the southwest corner of the building against the existing stage.

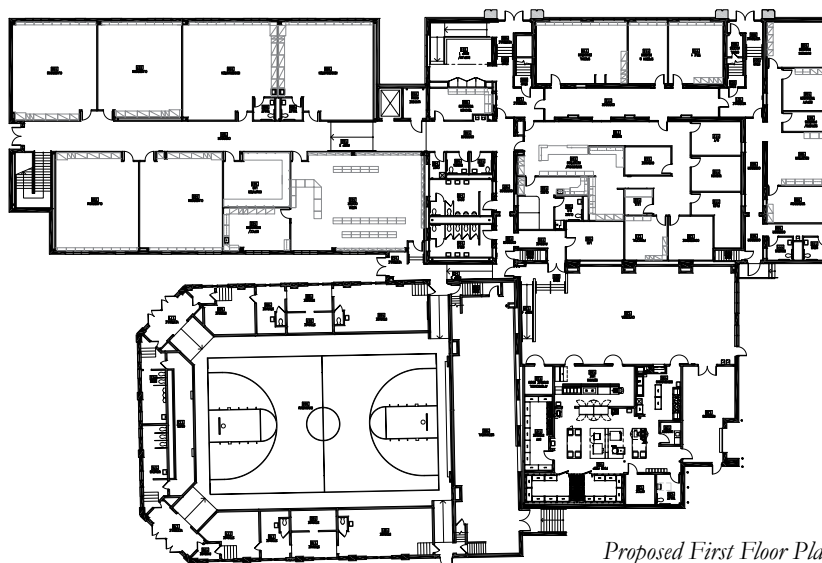

The addition will house the cafeteria, kitchen and receiving area on the first floor with a music room and mechanical fan room on the second floor. The existing gymnasium and lower level rooms will remain mostly unchanged; work is limited to mechanical, plumbing and electrical systems. Renovations will include ADA accessibility, exterior repair, window and ceiling replacements, and selected new finishes. The project is currently in design.
