

## Purdue University Ross Aide Stadium

- Located in West Lafayette, IN
- Owner: Purdue University
- Renovation and additions to Ross Aide Stadium
- Project Description: The recent renovations and the addition of the pressbox building to Ross Aide Stadium left the south end of the stadium looking incomplete. The existing steel frame bleachers were not only aesthetically pleasing but somewhat dangerous and in need of repair or replacement. The innovative design approach incorporates a new multi-story office and alumni suite area that overlooks the field, a lawn area for picnics as one watches the game and new stadium seating. The additions complete the enclosure of the stadium and offer unique seating arrangements and alumni gathering areas while maintaining the parking lot that is now located under the new building. This project is currently awaiting funding.
